**Diagnostics Plus Announces Four Key Promotions**

State College, PA – Diagnostics Plus, a market research firm, announces the promotions of four of its leadership team. Michelle Hostetler has been promoted to Vice President of Research and Operations. Noret Flood has been promoted to Director of Field Services and Technology. Trish Evanitsky has been promoted to Director of Employee Research. Michael Hostetler has been promoted to Director of Business-to-Business Research.

“They have been the heart and soul of Diagnostics Plus over the past decade. They’ve committed themselves to the company’s vision, dedicated themselves to their clients and have made personal sacrifices to the growth and security of Diagnostics Plus and its clients. As a result, they need to be recognized for what they excel in,” said Paul Weener, founder and CEO of Diagnostics Plus.

About Diagnostics Plus

Diagnostics Plus is a full-service market research firm offering expertise in all forms of market research including customer and employee satisfaction and new product development market research in key industries including manufacturing, technology, health care, education and transportation among others.
