Erin Locke Joins Diagnostics Plus

State College, PA – Diagnostics Plus, a market research firm, announces the hiring of Erin Locke as a research associate.

“Erin Locke provides us with immediate experience in the data preparation and analysis fields. We plan to utilize her skills in a number of growing areas for Diagnostics Plus, including employee and organizational assessments,” said Michelle Hostetler, Vice President of Operations at Diagnostics Plus.

Erin has a Bachelor of Science in Psychology from Virginia Tech University. Most recently, she has worked as a Data Analyst for CDM Federal Programs in State College. She previously worked as a Production Coordinator and Research Associate for Tax Analysts in Arlington, Virginia.

“As Diagnostics Plus grows, we’ve been fortunate to be able to find talented individuals to join our company, many of whom are in our own backyard,” said Paul Weener, President of Diagnostics Plus.

About Diagnostics Plus

Diagnostics Plus is a full-service market research firm offering expertise in all forms of market research including customer and employee satisfaction and new product development market research in key industries including manufacturing, technology, health care, education and transportation among others. Additional information can be found at www.diagnosticsplus.com.
